

Taiwan Imaging Devices: Compete

IDC's Compete is a companion product to its flagship Trackers that are a leading industry benchmark for measuring and monitoring a market's size and forecast by country across various technologies. *Taiwan Imaging Devices: Compete* provides an in-depth analysis of the Taiwan imaging devices market that helps customers develop a deeper sense of the trends to prepare a sound market strategy. IDC's in-country tracker analysts are able to provide an unrivaled in-depth market view based on the latest trends and analysis garnered from numerous supplier interviews, buyer surveys, and other secondary sources.

Markets and Technologies Covered

- Taiwan hardcopy peripherals market
- Taiwan printer consumables market
- Taiwan production printer market
- Taiwan industrial printer market

Core Research

- **Executive Summary:** The key market highlights for the period
- **Market Overview:** Assumptions and key highlights that affect the trend line
- **Competitive Analysis:** Analysis of vendors at an overall level and by a deeper market segmentation to highlight each vendor's strengths and market positioning
- **Product Segmentation:** Covering key market shifts by various subsegmentations within a product
- **Forecast Analysis:** The overall market with assumptions and key highlights that affect the trend line
- **Buyer Segmentation** with commentary on key spending trends by segment (government, education, small, medium, large and very large enterprises) and use case to comment on large deals and events
- **Channel Analysis:** Analysis of major movements across service providers, retailers, systems integrators, and so forth for those trackers that include this data

Key Questions Answered

1. What are the macrorends and microrends shaping the spending in this market?
2. What is the product segmentation analysis by category to observe growth and shifts in spending within various product categories?
3. What is the competitive outlook in this market, and what is behind the market winning strategies of leading vendors?
4. Which buyer segments are spending more/less, and what drives the motivation/reluctance to spend by major buyer segments?
5. What are the forecasts and related assumptions in the short and long term?

Companies Analyzed

This service reviews the strategies, market positioning, and future direction of several providers in the imaging devices market, including:

Brother, Canon, Epson, Fujifilm, Fujitsu, HP Inc., Konica Minolta, Kyocera Documents Solutions, Lexmark, Mimaki, Mutoh, Pantum, Ricoh, Roland, Sharp, and Toshiba.
