

Japan Services (Japanese Version with Key English Language Reports)

AN IDC CONTINUOUS INTELLIGENCE SERVICE

The accelerated cloud-first and expanding digital business (DB) initiatives in enterprises are forcing IT services vendors to transform their business model. This includes not just providing SI and IT outsourcing but also combining business consulting and business process outsourcing (BPO). IDC's *Japan Services (Japanese Version with Key English Language Reports)* provides a holistic analysis of IT services and business services and supports vendors' strategic planning in response to market change caused by digital business. The service also analyzes cloud-related IT services spending in the DB era. In 2024, this service will strengthen the research of modernization for legacy systems and human resource development at vendors.
