

European Modern HR Strategies and Opportunities

AN IDC CONTINUOUS INTELLIGENCE SERVICE

IDC's *European Modern HR Strategies and Opportunities* program explores Europe's Human Capital Management (HCM) and payroll applications market. This research investigates the competitive landscape and key trends like hybrid work, employee experience, and HR transformation, along with the technology innovation impacting market opportunities. By leveraging this information, vendors can make well-informed decisions, increase competitiveness, and improve their positioning/messaging. HR decision-makers will also benefit from key insights into the latest HR trends, helping them to navigate and understand the rapidly evolving HR technology landscape in Europe.

Markets and Subjects Analyzed

- Core HR
- Recruiting, employee performance management, workforce management, learning, and compensation
- Payroll and benefits
- Employee experience
- Employee wellness
- HCM applications for SMEs
